PROFESSIONAL SUMMARY

Full-Stack Developer with experience across the entire web application lifecycle: from design and architecture to deployment. Committed to delivering high-quality software and continuously improving automation processes. My goal is to elevate companies' digital presence through cutting-edge technology.
Customer Support Agent with experience in client services and issue resolution. I specialize in effective communication, objection handling, and personalized follow-up to ensure customer satisfaction. I am looking to join a company where I can apply my problem-solving skills to enhance the user experience.
